

Welcome to BusinessMaker group rooms

1. Close other programs that are using your computer's camera and microphone

2. Choose audio and camera source

NOTE Bluetooth headset users - select the speaker source as well (only Edge and Chrome browsers support speaker selection).
If necessary, each user can mute their own microphone.

3. Click "Join the room"

In the group rooms you can discuss the topics of your choice via video and chat. In the group room, participants appear anonymously. Be sure to share your contacts in the chat!

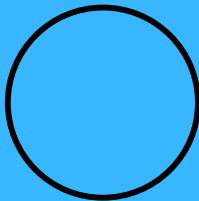

You can view the room information under "show description".

The room also has a screen sharing function. Please note that screen sharing does not share audio. We recommend that only one person share the screen at a time.

IT support number is visible after you join the room. IT support is available throughout the event. Call IT support first.

if you are facing technical challenges, close the room and try to rejoin.

Have good meetups!
